EXPERIENCE

React Front-End Intern (Bootcamp)
Bridgeon Solutions, Kochi, Kerala (2025)

- Developed 15+ reusable UI components using React.js, Next.js, and Tailwind.
- Improved page load speed by 20–30% through optimized rendering and asset management.
- Implemented 5+ dynamic features including form validation, routing, and interactive animations.
- Collaborated with a team of 8+ developers in agile sprints and stand-ups.
- Worked with Git and GitHub, making 30+ version-controlled commits.
- Ensured cross-device responsiveness and fixed 40+ UI/UX bugs during development.

LANGUAGES

- English (Fluent)
- German (Basics)
- Malayalam (Fluent)
- Tamil (Fluent)

SOFT SKILLS

- Communication
- Adaptability
- Problem-Solving
- Time Management

HOBBYS

Reading, music, designing, drawing, and traveling — improving creativity, cultural awareness, and problem-solving mindset.

PROJECTS

Paw-Place – Pet Food E-commerce Web App

React | JSON Server | React Router | Axios | Bootstrap

- Built a responsive store with 50+ products, cart functionality, and user authentication.
- Developed admin panel with CRUD operations for products and users.
- Reduced navigation reload time by 40% using React Router.
- Added form validation with Formik & Yup, reducing user input errors by 30%.

Personal Portfolio Website

Next.js | Tailwind CSS | Framer Motion | GSAP
(https://portfolio-green-pi-85.vercel.app/)

- Achieved a 90+ Lighthouse score through optimized routing and code splitting.
- Created smooth UI transitions and motion effects, increasing engagement by 40%.
- Designed and deployed a fully responsive portfolio visited by 100+ users.

Tic-Tac-Toe Game (3D Enhanced)

React | Vite | Three.js | Tailwind
(https://tik-tak-toe-ruby.vercel.app/)

- Built single-player & multiplayer modes supported across 2–3 devices.
- Added 3D board animations that increased user engagement by 50%.
- Implemented sound effects and reduced latency by 60% for smoother gameplay.
- Designed efficient state management ensuring 95% accurate game logic.

Photo Studio 3D Motion Website

Next.js | React | Three.js | Tailwind | Framer Motion
(https://photo-studio-puce.vercel.app/)

- Implemented 3D text animations and camera-motion effects running at 45+ FPS.
- Optimized 3D assets, reducing load time by 25%.
- Added scroll-trigger animations, boosting user interaction by 35%.
- Delivered a polished modern UI with seamless transitions.
